S. N. Wright Funeral Services Held May 4

Funeral services for Samuel Newton Wright, 77, who died at his home Tuesday, May 2, were held from Carbon United Church on Thursday, May 4. Rev. R. R. Hinchey of Edmonton officiated and pallbearers were F. Bessant, S.J. Garrett, L.F. Poxon, J. Gordon, Wm. White S.F. Torrance. Interment was in Carbon cemetery with Jacques Funeral Home in charge of arrangements.

Born in Flesherston, Ont., he moved to Carbon from Emerson, Man., in 1906. He farmed here until 1935, when he took over the agency for Imperial Oil Ltd. and International Harvester. A member of the Carbon United Church he was also a member and past master of the Carbon Masonic Lodge No. 107. He had served on the Municipal Council of Kneehill No. 48 for 25 years and was reeve for 23 years.

He is survived by his wife, Helena; three daughters, Mrs. L. Halstead, Carbon; Mrs. J.R. Taylor, Indian Head, Sask.; and Mrs. I. W. McCracken, also of Carbon; two sons, Dr. A.J. Wright of Vernon, B.C., and Sidney N. of Carbon; 9 grandchildren; and three brothers, William of Windsor, Ont.; Weston of Winnipeg, and David of Vancouver.

Beginning of spring farm work resulted in a small attendance of members at the Carbon Local F. U.A. meeting in the Legion Hall Monday evening, May 1. Those present heard an interesting report by Mr. Ted Sherring on a recent meeting of the A.P.P. held in Calgary.

A rally for Sub-district No. 4 of the F.U.A. will be held in Carbon park June 3. If present plans materialize a guest speaker will be heard in the Legion Hall during the afternoon. Building of a grain cleaning plant was discussed and tabled because of the prohibitive cost of construction.

Because of the rally no regular meeting will be held June 5—but be sure to attend the rally June 3.

Mrs. Jacobina Kranzler Mourned in Passing

Mrs. G. (Jacobina) Kranzler, 66, passed away at her home in Carbon on Wednesday, May 3. Funeral services were conducted from Carbon Baptist Church by Rev. J.G. Rott at 2 p.m. Monday, May 8, with Winter Bros. Funeral Home in charge of arrangements. Pallbearers were two sons and four sons-in-law.

Born in Odessa, Russia, Mrs. Kranzler emigrated to the United States with her parents when a year old. She was married in 1909 to Gottlieb Kranzler and in June, 1913, moved to Carbon, where the couple farmed until retiring in October, 1949.

She is survived by her husband; three sons, Ernest of Champion, and Reinhold and Rudolph of Carbon; four daughters; Mrs. Pauline Drexler of Carbon; Mrs. Rita Mueller, Mrs. Martha Mueller, Mrs. Nora Lebsack, all of Champion; 14 grandchildren. A son, Emil, predeceased her 35 years ago on May 3.

Rush On For Oil Permits In Peace River

VICTORIA.—So great is the interest in the Peace River country, as a result of the rush of applications for oil permits that B.C. and Dominion Governments will join this year in making a precise boundary-line survey, it was announced by George Melrose, deputy minister of lands.

A start will be made as soon as possible. When such immense areas of land are coming under oil prospecting permits it is necessary to have accurate definition of boundaries in order to avoid future complications, Mr. Melrose said.

He remarked that more than 9,000,000 acres now were held under prospecting licences and that fully two-thirds of the aggregate holdings were in the Peace River county. Some idea of what this total represented, he added, could be gained from the fact that it represented an area nearly twice the size of the old Dominion Peace River block.

Western Briefs

Asks Status As City

FLIN FLON, Man.—The "North of 58" Trades and Labor council has decided to ask the provincial government to make Flin Flon a city. The resolution stems from the provincial labor department's intention to declare increased benefits for the town under the Fair Wage act.

Big Fish Derby

VANCOUVER.—A new automobile will go to the angler landing the largest salmon in the Kingsway Rotary Club's initial derby which opened May 1 and closes Derby Day Sept. 24 when 1,200 fishermen are expected to take to the water.

134 Feet Of Pennies

STURGIS, Sask.—Pennies can be made to stretch a long way, pupils at the public school have found. They staged a march of pennies for the Junior Red Cross and realized \$21.47. The coins stretched 134½ feet.

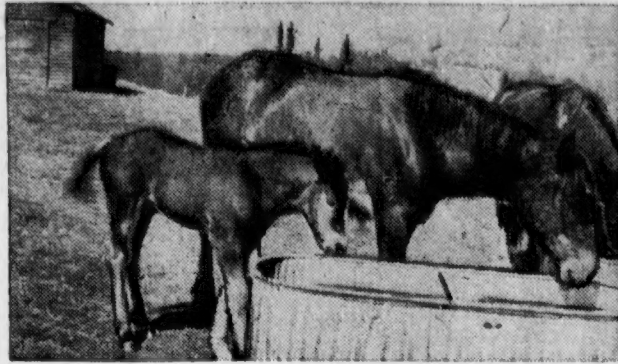

Wins Appeal

VICTORIA, B.C.—Herman Linder, manager of a rodeo show from Cardston, Alta., won his appeal against a conviction of abusing a horse in a bronc-bucking contest at Callister park, Vancouver last May.

Form Ball League

GLADSTONE, Man.—The Central Junior Baseball league comprising teams from Portage, Macgregor, Oakville and Gladstone has been formed and opens its season May 16.

Rare Type Of Horses

A couple of cayuse mares and foal snapped in Alberta. Developed by the Indians from horses introduced by the Spaniards, these "native" horses are now very rare.

R.C.A.F. To Hold Largest Peacetime Camp At Gimli

OTTAWA.—The largest peacetime summer camp ever held by the R.C.A.F. will be situated at Gimli, Man., in July.

The city of Winnipeg, 402 (fighter bomber) reserve squadron will attend the reserve training camp with four other squadrons from western Canada. Other squadrons scheduled to arrive at Gimli, July 1, for a two-week period are, 422 squadron, Vancouver; 406 squadron, Saskatoon; 418 squadron, Edmonton, and 403 squadron, Calgary.

Gimli will be one of four summer camps attended by Canada's 10 reserve squadrons. Other camps will be held at Muskoka, Ont., Chatham, N.B., and St. Hubert, Que.

North Indians To Be T.B. Checked

PRINCE ALBERT, Sask.—More than 3,000 treaty Indians in northern Saskatchewan will be checked for tuberculosis in a survey beginning June 19.

E. S. S. Jones, superintendent of Indian affairs, has announced the tests will be made in 13 northern settlements. The medical staff will travel by plane.

Treaty Indians in the rest of Saskatchewan were examined last year.

PRICE OF WHEAT FOR DOMESTIC SALE NOT SET

OTTAWA.—Trade Minister Howe said in the commons the government has not yet decided on the price of wheat for domestic sale in the 1950-51 crop year, starting Aug. 1.

He was replying to Percy Wright (CCF—Melfort), who asked if the government intended to continue the present price of \$2 a bushel, plus carrying charges.

CANADIAN WORKERS MAKE \$620,000,000 IN MONTH

OTTAWA.—Wages and supplementary income of Canadian workers in January this year totalled \$620,000,000, the bureau of statistics estimated.

The January figure was three per cent. under the December, 1949, mark of \$642,000,000, but two per cent. higher than the \$607,000,000 paid in the corresponding month last year.

SELECTED

RECIPES

ENGLISH MONKEY

1 cup milk
1 cup bread crumbs
1 tablespoon butter
½ teaspoon salt
Few grains pepper
1 cup cheese, cut in small pieces or coarsely grated
1 egg
4 slices of toast

Scald milk in top of double boiler; add the bread crumbs, butter, salt and pepper. Add the cheese and stir over hot water until the cheese has melted. Stir in the slightly beaten egg and cook for 1 minute. Pour over toast and serve immediately.

HEALTH SALAD

1 cup shredded raw cabbage
1 apple, diced
1 carrot, grated
½ cup halved red grapes
Toss together lightly and marinate with your favorite salad dressing. Serve on lettuce leaves or other greens and sprinkle with paprika.

RARE SWANS REST ON ALBERTA FARM

GRANDE PRAIRIE, Alta.—Thirty Trumpeter swans rested near a small, water-filled depression on the farm of Billy Salmon north of here recently. The rare, beautiful white birds—largest flying birds on the continent.

Saskatchewan Doctor Wins Medical Award

SASKATOON.—Dr. Lawrence Peters, formerly of Saskatoon and now on the faculty of Western Reserve university in Cleveland, O., has been awarded the Markle Foundation scholarship, it was learned here. It is one of the most coveted awards in medical science on the North American continent.

FORSAKES LACROSSE

Indians Turn To Basketball

PRINCE RUPERT, B.C.—Their native game of lacrosse virtually forsaken, the Indians of British Columbia's north coast are working for a reputation in basketball.

Although they invented the sport which Canada adopted as its national game, the northern natives spend hours almost every day for four months practising basketball. They seldom touch the gutted stick.

Even in weather 50 below, they turn out religiously to get in shape for the annual tournament here.

The event, held early in March, is part of a plan. They're in town for supplies that time of year anyway, and the tournament provides a drawing card for buyers of their products.

Spectators aren't a paramount problem. Their families, which they bring along, keep the average attendance up to 1,000 by themselves.

From villages as far distant as 200 miles, seven teams converged on Prince Rupert this year for their fourth annual meet.

Be content—but never satisfied.

Everywhere!

BRIER

Sweet as its name!

Yummy! Chelsea Bun Loaf

A treat you can make easily with

new fast DRY Yeast

Now you have Fleischmann's Fast Dry Yeast, forget about the oldtime hazards of yeast baking! Always at hand—always full-strength and fast rising! Keep a month's supply in your cupboard! Make this delicious Chelsea Bun Loaf—cut in slices for buttering, or separate the buns.

CHELSEA BUN LOAF

Make 3 pans of buns from this one recipe—dough will keep in refrigerator for a week.

Scald ¾ c. milk, ¼ c. granulated sugar, 1½ tsp. salt and ¼ c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl ½ c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 mins., THEN stir well. Add cooled milk mixture and stir in 1 well-beaten egg. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2½ c. once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Cut off ¼ of dough, knead into a smooth ball, place in greased bowl, grease top of dough, cover and store in refrigerator until wanted. Shape remaining ¾ of dough into a smooth ball, place in greased bowl and grease top. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Cream 3 tbs. butter or margarine and blend in ½ c. brown sugar (lightly pressed down), 1½ tsp. ground cinnamon and 3 tbs. corn syrup; spread about ⅓ of this mixture in bottom of a greased loaf pan (4½" x 8½") and sprinkle with pecan halves. Punch down risen dough and roll out into an 8" square; loosen dough. Spread with remaining sugar mixture and sprinkle with ½ c. raisins. Loosely roll up like a jelly roll. Cut roll into 6 slices. Place in prepared pan. Grease tops. Cover and let rise until doubled in bulk. Bake in moderate oven, 350°, 25-30 mins. Let stand in pan for 5 mins. before turning out.

**LOW COST
WEED CONTROL**

DOW WEED KILLERS

Kill weeds easily, quickly, chemically with Dow Weed Killers. 2-4 Dow Weed Killer controls most weeds without harming many crops. See your local agent handling 2-4 Dow Weed Killer and other Dow products without delay.

Toronto 1, Canada

LOOKING TO OTHER PLANETS

Americans Booking Reservations To Moon, Mars And Jupiter

NEW YORK. — The space ship time-table says: "To Moon—9½ hours." "To Mars—75 days." "To Jupiter—666 days." Some 10,000 Americans have signed up for reservations to go out of this world. The expected date—maybe 1975, maybe later. The space travel bureau of the Hayden planetarium, at the American Museum of Natural History, will take your reservation.

Its offer started as a gag, to publicize a planetarium show of an imaginary but realistic-seeming trip to the Moon, Mars, Venus, Saturn and Jupiter. Space is the next world for man to explore.

In the show a rocket takes off with a shrieking roar and disappears into the heavens. Seemingly, you zoom in for close-up looks at the planets. The close-ups are movies of models based on paintings by Ches-

ley Bonestell of what our space neighbors may look like. You peek into the craters of the moon, at the rusty surface of canal-lined Mars, at the rings of Saturn and a lake of liquid ammonia on Jupiter.

The idea of reservations — to be turned over to the first commercial interplanetary flight service—tickled the imaginations of men, women and children. They are signing up by the hundreds each day, says Frank Forrester, directing the "travel bureau".

A news story brought a flood of letters to associate curator Robert R. Coles. Most play along with the gag, but some are serious about wishing to go some day.

A youngster in Kansas wrote for a ticket "to the moon in 1975. I will be 31 years old then."

A New York woman said she would ask Lloyd's of London for a \$50,000 insurance policy to cover the return trip from Mars.

A Mississippi salesman said he'd like to live on Venus, between the Moon and Mars. That way he could commute to other planets, selling his line of building materials for new planetary homes.

A high school student wanted to go "to get out of this world before the H-bomb blows it sky high."

Keep Budget Down And Nutrition High

Keep the food budget down and the family nutrition high. Plan menus days ahead of time, using as many of the plentiful foods as possible. They are cheaper.

Here are a few good budget meals. Veal chops, buttered noodles, Harvard beets, rolls, butter, fresh fruit, coffee, milk.

Creamed corn omelet, canned peas, crisp rolls or bread, butter, cottage cheese and grapefruit salad, canned peaches, chocolate brownies, coffee, milk.

Spaghetti and cheese, bowl of mixed vegetables and green salad, French dressing, rye bread, butter, rhubarb, pie, coffee, milk.

Baked pork chops, baked sweet potatoes, broiled tomatoes, mixed green salad, bread, butter, cookies, coffee, milk.

Saute of beef liver and onions, parsley, potatoes, mashed yellow turnips, bread, butter, cabbage and lettuce slaw, whipped gelatine.

YOU'RE TELLING ME

By WILLIAM MITT

Central Press Canadian Writer

"All this talk about the Big Three is OK," says Grandpappy Jenkins, "but what in tarnation is gonna happen to Little Me?"

A fellow claims he got 88 puffs from one pipeful of tobacco. Mac Who?

A leading tailor says men buy, on the average, one-third of a suit a year. Judging by our finances, this is the year for the vest.

A fashion magazine says derbies are coming back in style. Has the editor tried to get into an automobile recently?

A New Zealander—we read, but find it hard to believe—operates a whale ranch. Wonder if the whale-pokes, in rounding up the herd, use submarines or wear diving suits?

A flying saucer is reported to have emitted sharp whistles. Some solar system cop on the track of a speeding space ship?

A fashion note indicates the back-swept drape and plunging neckline are bringing up the rear of the fashion parade.

Japanese manufacturers, we read, are making a drive for the world shirt market. To make up for losing their own in the late war?

A Paris fashion designer complains that most women have the wrong shape for the new styles in gowns. Mighty careless of Old Mother Nature!

Eating flowers to achieve beauty, is being suggested. We don't know about the beauty angle, but it's obvious that a bouquet of posies wouldn't be as fattening, say, as a 10-pound box of bonbons.

If you can stop yawning long enough, listen to this: Science says there is no such thing as spring fever!

The world's loudest noise was the volcanic explosion of the island of Krakatoa, Dutch East Indies, in 1883. It was heard by human ears in Bangkok, over 1,400 miles away.

Let Them Match When You Can

Canadian casuals show smart styling this season. In top photo, left: A low-cut sandal in palomino blond ldp with matching roomy shoulder bag. Right: A trim pump style made in play and day colors. Matching over-shoulder bag is compact and roomy. In photo above, left: Shiny alligator calf in sporty pump style, matched with a box type bag. Right: A two-tone brown classic sandal in jewel tones in genuine cobra leather, and matching over-arm dressy style bag.—Central Press Canadian.

HEALTH

Canadian Arthritis And Rheumatism Society

Formation of a national voluntary agency in the field of arthritis and rheumatism came about in 1948, following a 1947 conference called by the Department of National Health and Welfare. The Canadian Arthritis and Rheumatism Society was incorporated under the Dominion Companies Act on March 15, 1948. The constitution called for the setting up of provincial divisions.

The federal health department called the national conference in 1947 at the request of the Canadian Rheumatism Association, a professional body composed wholly of doctors.

Initially the new society planned to undertake:

1—Professional education through a program of fellowship whereby qualified young physicians would be assisted in post-graduate studies at leading rheumatic disease centres in Great Britain, the United States and Canada;

2—A research program through which aid would be given to existing research facilities at universities and hospitals;

3—Dissemination of factual information to the medical profession and the lay public;

4—Provision of aid in the establishment of increased diagnostic and treatment facilities;

5—The setting up of mobile physiotherapy units, and homemaker, rehabilitation and social services.

Provincial divisions of the Society accept primary responsibility for (a) all matters relating to diagnosis, treatment, welfare or rehabilitation of sufferers; (b) professional education at provincial and local levels, particularly for general practitioners; (c) volunteer activities, homemaker services; (d) the raising of funds for provincial projects and a proportion of national expenses.

The Society's first national appeal for funds took place in the spring of 1950.

Women Drinkers Said More Extreme

TORONTO. — Women who smoke and drink tend to be "more extreme" than men, Anglican Bishop G. A. Wells said recently. He offered this advice:

Stop "aping the men."

If you're under 20, leave the stuff alone.

If you go 20 years without tobacco and liquor, you'll probably never use them.

GEMS OF THOUGHT

INDIVIDUALITY

Individuality is the salt of common life. You may have to live in a crowd, but you do not have to live like it, nor subsist on its food.

—Henry Van Dyke.

Human faculties are common, but that which converges these faculties into my identity, separates me from every other man.—Giles.

The greatest works are done by the ones. The hundreds do not often do much—the companies never; it is the units—the single individuals, that are the power and the might.

—Spurgeon.

The universal does not attract us until it is housed in an individual.

—Emerson.

A people, it appears, may be progressive for a certain length of time, and then stop. When does it stop? When it ceases to possess individuality.—John Stuart Mill.

The reality and individuality of man are good and God-made, and they are here to be seen and demonstrated; it is only the evil belief that renders them obscure.—Mary Baker Eddy.

The patent for the circular saw was taken out in 1820 by Robert Eastman of Brunswick, Me.

A BIT MORE SALT WOULDN'T DO ANY HARM

—Stokholm Tidningen.

New Diseases Can Be Expected

BOSTON. — You can expect more and more new diseases. Whether any will sweep the earth like former epidemics will depend on medical science and the ending of poverty and hunger.

What they are and where they come from was made clear by some of the United States' leading physicians here recently at meeting of the American College of Physicians.

The diseases are coming from birds, bugs and other animals. They probably have existed in these humble creatures for thousands of years. They have attacked man in the past, but went unnoticed because people were fewer and attacks isolated.

In these sporadic forays, the disease organisms picked up a liking for human tissues. That is, in human beings the organisms were modified and adapted, for future human attacks. They retired to their animal hosts, better fitted for the next chance.

Now, with earth's population rapidly doubling, the hidden diseases are getting more chances. A mechanized civilization has upset nature, and this lets the diseases loose.

Distance no longer is a protection. Your next-door neighbor may fly half way around the world and bring the infection home.

Spring Fashions Call For Figure Control

Spring fashions call up a need for definite figure control! With slim lines coming into the fashion spotlight, light-weight foundations for warm weather are necessarily important.

The various skirt treatments demand flat hips, front, back and at the sides... corsets and foundations will slim the hips all around and define the natural waistline. The tubular look also requires less exaggerated bust lines.

Bare tops, whether strapless, built-up, scooped or with thin straps will put at least one strapless bar in almost every woman's wardrobe.

Sheers offer many possibilities for color-co-ordinated bras and slips.

And there is a growing acceptance of the one-piece garment for the smooth, sleek lines it gives under the new, slim dresses.

CONTRAST IN COSTS

It is estimated that it cost Columbus' backers over \$2,000 to enable him to find America in 1492. The Scott Antarctic expedition cost \$500,000.

On The Side —By— E. V. Durling

LONGEST WAR

What was the longest war in history? It was that between the Seminole Indians and the United States. It was ended by a treaty of peace in 1834. However, the historian making mention of this interesting fact didn't say when the war started. Incidentally, the Seminoles claim they treat their squaws better than any other Indian tribe in northern America. The Seminole squaw is never forced to do any hard labor in the fields and her duties are comparable to those of the American housewife.

BEST SINGER

The nightingale is the poet's favorite bird and is generally believed to be the top bird vocalist. However, the mocking bird is a better singer than the nightingale. In 1931 at Bok Tower, near Lake Wales, Fla., there was a singing contest held between imported nightingales and mocking birds. The mocking birds were declared the winners. Anything the nightingales could sing the mocking birds could sing and sing it better.

OLDEST OF THE RING

That great ringman of the yesteryear, Tom Sharkey, has celebrated his 77th birthday. Tom is living in San Francisco and feeling fine. He is the only man alive who fought James J. Corbett, John L. Sullivan and Bob Fitzsimmons.

HUSBANDS' NAME

Feminine contemporary who strongly believes in career women using their maiden names or professional names says that when a woman uses her husband's name it has a tendency to give her an inferiority complex. A ridiculous assertion, I could fill this column with the names of successful career women who used their husbands' names.

TWIN HABITS

To what extent do twins run in families? That is, if a man's mother, or grandmother, gave birth to twins is it likely he will be the father of twins? And how often do twins become the parents of twins? The most interesting situation I have recently heard of regarding twins is the case of a man in Olive Branch, Miss. He was married three times. He had twins by his first wife, twins by his second wife and two sets of twins by his third wife.

CAT LOVERS

"Quite a few people who are fond of cats write to ask why you don't mention the felines more," writes a Bostonian. Ask one of these cat admirers why a cat always tortures a mouse before killing it. How can an animal who acts that way be styled as lovable?

VEGETARIANS

Even though I am a steak and roast beef enthusiast, I do not wish to deprive the vegetarian diet any credit due it. Therefore please be informed that the great British vegetarian and enemy of meat eating, Dr. Josiah Oldfield, recently celebrated his 97th birthday and is feeling fine.

SEASICKNESS

The liner Queen Elizabeth recently experienced one of the roughest trans-Atlantic crossings in its career. Yet practically nobody on the ship was seasick. Credit for that is given for the advice to passengers and crew by principal medical officer Dr. S. M. Rust to use the drug called dramamine. This drug seems a sure-fire preventative against seasickness, though it was not originally intended for that purpose.

Spectacular
Rate Of Climb
For Jet Planes

★ ★ ★ ★

★ ★ ★ ★

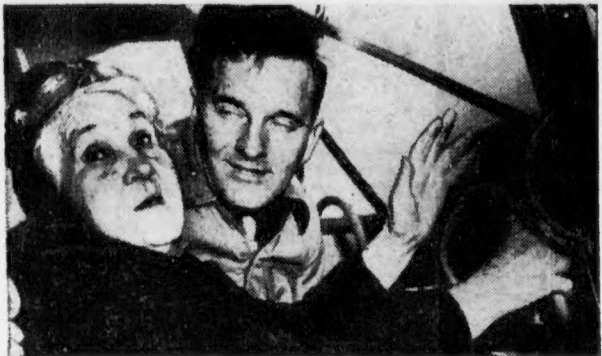

★ ★ ★ ★

★ ★ ★ ★

—Central Press Canadian.

MORE SPEED FOR JET PLANES — A spectacular rate of climb is said to be the direct result of these jumbo-sized tail pipes attached to the U.S. Air Force's F-89 jet interceptor, which is being inspected at Hawthorne, Calif. The pipes house after-burners, a comparatively new aircraft powerplant development, and are hooked into the plane's twin-jet engines.

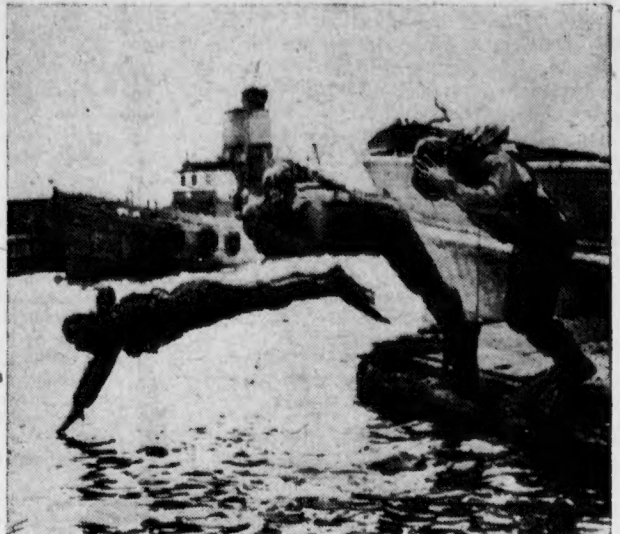

PILOTS PLANE ON 102nd BIRTHDAY—Mrs. Lydia Stevens, age 102, piloted an airplane on her birthday for the first time. Pilot Edward Padlo looks with admiration at Mrs. Stevens, who is wearing a pilot's helmet, before takeoff. The centenarian, who rolled bandages for the army during the U.S. civil war, piloted the plane for several minutes while in flight over Boston.—Central Press Canadian.

—Central Press Canadian.

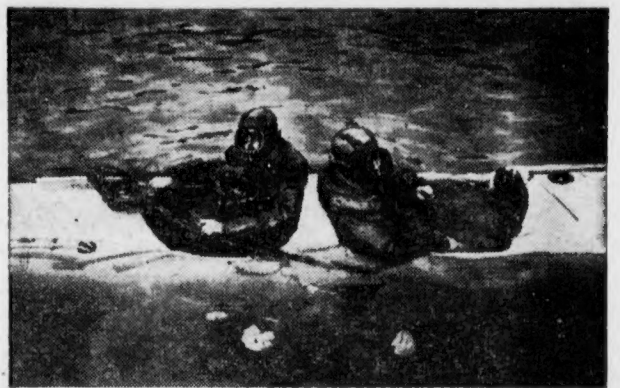

SCREEN STAR—Brumas, a four-months-old polar bear at the London zoo, has stolen all hearts in the vicinity and has been photographed almost as often as most screen stars and political figures. Here a motion picture cameraman records Brumas' antics for the films.

Britain Develops Midget Subs

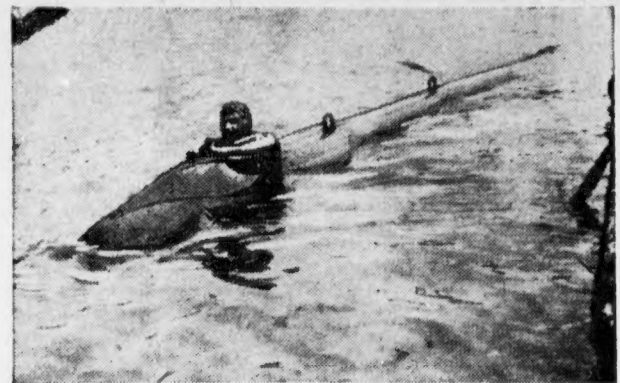

(Central Press Canadian photos)

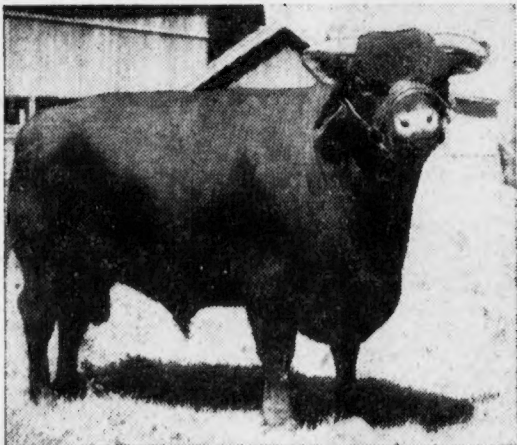

Looking like troglodytes, these frogmen, complete with flippers and breathing masks, dive off a raft at Portsmouth naval base, England. Development of diving equipment has been one of the marked advances in British naval research since the last war showed the destructive power of the individual underwater carrier-of demolition charges.

This two-man submarine being tested at Portsmouth carries a torpedo and, theoretically, is capable of sinking any ship afloat. It also had a detachable warhead which can be fastened magnetically to an enemy warship.

Even this one-man submarine carries a torpedo and the frog-man pilot-diver can leave his seat, remain afloat for days by himself if necessary.

GOOD FARM PRACTICES—Good crops, good livestock, and good farm practices spell success on the farm of Colin Blyth, near Guelph, Ont. Photo at above left shows a bulldozer quickly getting rid of an old fence line, top right, two imported Shorthorn heifers which have been added to the Blyth herd. Bottom left, The Blythwood Challenger, reserve junior champion Shorthorn bull, at the 1949 Royal Winter Fair. Right, The Blythwood Illuminator, another prize bull, bred and shown by Mr. Blyth.

—Central Press Canadian.

DRAFT AGREEMENT TO END WAR THREAT—Prime Minister Jawaharlal Nehru, (left), seated, of India, and Liaquat Ali Khan, prime minister of Pakistan, are shown signing the agreement on measures to be adopted in dealing with the minority problem in their respective countries. The agreement is expected to ease the tension that has threatened war between India and Pakistan since they became independent nations. Members of the respective delegations are in background.

—Central Press Canadian.

THIEF'S ACCOMPLICE FINDS A FRIEND—Louise Guthrie, of North Bay, Ont., is shown with her pet, Peter, a bear cub she adopted after his mother was caught in the act of raiding the commissary at North Bay airport. The cub was born in hibernation and he followed his mother on her fatal foraging expedition. Apparently he bears no malice; for he has taken to his new surroundings like the proverbial duck to water. Currently he is getting his nourishment from a bottle but will soon be able to fend for himself.

MOTHER RUNS, WARDEN GETS WOLF CUBS—These four wolf cubs were captured near Orangeville, Ont., after they were spotted with their mother. The mother ran away and now Eddie Smith, game warden, has the cubs.—Central Press Canadian.

WORLD HAPPENINGS

BRIEFLY TOLD

Western Germany has been granted \$5,651,000 in Marshall-plan aid to buy copper and other metals and naval stores from the United States and Canada.

A parliamentary assistant to Resources Minister Winters said the federal government will supply housing to low-income families only if the building industry does not.

The British Medical Journal has disclosed experiments are under way to find out whether television sets bombard their viewers with damaging X-rays.

Some 20 Newfoundland schools have applied for free radio receiver licences. Free licences are available for radios in schools for educational broadcasts.

The first all-Newfoundland moving picture has had its premiere in St. John's. It is called "Fraser's Cabot Cove", and was filmed in the province with Newfoundland actors.

Stiffer food rationing for Israel was announced by Supply Minister Dov Joseph. The meat ration is reduced from 300 grams (10.58 ounces) to 200 grams a week and sugar from 375 grams to 310 a week.

The Alberta government has decided to sell a famous automobile—the one used by the late William Aberhart, premier from 1935 to 1943. It was last used by J. C. Bowen, former Alberta lieutenant-governor.

City council in Capetown has called for applications for a scholarship for the training of an African native as children's librarian. The bursary, which is valued at £240, is available for colored people who are interested in library work with children.

SIR HARRY LAUDER LEAVES FORTUNE OF \$1,712,810

LONDON. — Sir Harry Lauder, Scots minstrel who died Feb. 26, left £358,971 (\$1,712,810) his will disclosed. Death duties payable on the estate totalled £207,581 (\$643,501). Principal beneficiary was his niece, Greta Lauder.

Fashions

Cavalier Classic

4855 SIZES 12-20 30-42

Anne Adams

Young Cavalier collar! More dash and swag in those big tabbed pockets, deep-set sleeves! This classic is a honey—all one, as shown here, or with contrast.

Pattern 4855 comes in sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40, 42. Size 16 takes 4½ yds. 39-in. This pattern, easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept.,
Winnipeg Newspaper Union,
60 Front Street W., Toronto.

1,934,930 Receive War Medals

OTTAWA.—The long task of distributing more than 2,000,000 war medals and campaign stars to veterans of the Second World War has almost been completed. To date a total of 1,934,930 medals and clasps have been dispatched to 386,332 individuals, including legal beneficiaries of deceased veterans.

GOLF TOURNEY DATES AT RIDING MOUNTAIN NATIONAL PARK SET

WASAGAMING, Man. — Golfing week at the Riding Mountain National park will be July 17 to 22, according to tentative dates set by superintendent Otto Heaslip. The Canadian open is being held in Saskatoon that week, and the Manitoba amateur follows it. The actual dates will be confirmed by the Wasagaming golf club at a meeting to be held early in June, but it is not expected there will be any change.

CANADA RANKS FIFTH IN TAKING IMMIGRANTS

OTTAWA. — Canada has placed 78,000 of the 800,000 European refugees handled by the International Refugee Association, according to Hector Allard, director of IRO's Canadian office.

In handling that number of refugees, Mr. Allard told the Ottawa branch of the University of Manitoba Alumni association, Canada ranked fifth among the nations of the world in accepting European refugees as immigrants.

During 1948-49 fiscal year, Junior Red Cross members packed and shipped overseas 469,083 gift boxes valued at \$938,166.

—Central Press Canadian.

PLENTIFUL PERCH — Reports from most sections of eastern Canada indicated the perch run was better than average this year. Ray Johnson holds up part of his catch at Pefferlaw, Ont., where hundreds of fishermen hooked their limit.

Bird Infection On The Decline

OTTAWA. — Agriculture Minister Gardiner indicated in the commons that the outbreak of Newcastle disease which has infected 45,000 birds in British Columbia's Fraser valley region is on the wane.

He told the commons that indications are "that new cases are diminishing in number and importance." There was "every hope of keeping complete control" of the situation by quarantine and the slaughter of infected birds.

The word "telegraph" was first used in France in 1792 to describe a signaling device invented by Chappe.

Population Drift

The population drift from rural areas to towns is noted by the Weyburn Review, (Sask.), which says:

The trend is general all over the prairie west, and we may add, in other older populated parts of Canada the same thing has been noticeable in this district. A lot of land has been denuded of families living on it, and the land itself has passed into the operation of someone else farming in a bigger way with power outfits, while the families have moved into town.

Weyburn has not suffered in this way, except in that it has caused a tremendous demand for housing accommodation. Weyburn is growing, and growing fast, and the housing accommodation situation has been acute for a long time, and in spite of the fact that hundreds of homes have been built in the past two or three years, supply has not yet caught up with demand.

We do not think that the trend toward making the larger places still larger, while the small towns and villages shrink in size, is a healthy trend. It is developing into what may become large estates with the fewer people working on them becoming mere wage earners.

BIRTHS, DEATHS UP

OTTAWA. — More persons were born and more died last January than in the corresponding month a year ago. The bureau of statistics reported that births during the month totalled 25,362 compared with 23,637 in January, 1949. Deaths totalled 9,695 against 8,870.

French Foreign Legion Attracts Fighting Men At 3 Cents a Day

The Foreign Legion parades in Paris on Bastille Day. Note old fellow with white beard (second from left).

By SANFORD MARKEY
(Central Press Canadian
Correspondent)

PARIS, France.—France's Foreign Legion is experiencing little trouble today in keeping its ranks at top fighting strength. And for France, fighting native Communists in Indo-China, the large number of Legion recruits is a welcome boon.

Most numerous of any nationality seeking enlistment today is the German. Many of them are by-products of the Hitler regime, trained in the rigors of tough, rough war. Many of them, too, learned their fighting in North Africa, scene of the Legion's training ground.

There are some who say ex-Germans comprise as much as 60 per cent. of the Legion's 25,000-man fighting force, but French war ministry officials deny that claim.

"The maximum German strength in the Legion today," said Capt. Deleue of the war ministry, "is 25 per cent. of the active force. In fact," he added, "no nationality is permitted to surpass that 25 per cent. figure, at any one time."

To make sure that figure is not surpassed, the Legion maintains a strict checking and fingerprinting system that, according to the captain, "is as effective in checking a man as your police."

The Legion is on guard today for the possible spread of communism.

"We accept Communists and men of all political faiths," declared the captain, "but the moment a Legionnaire begins to show political tendencies while in rank, he is either put in jail, or we consider he has violat-

ed his contract and he is discharged. We permit no proselytism."

Most Frenchmen don't appear too concerned about the large number of small fry Nazis enlisting in the Legion. They will point out that "the desert does strange things to men."

Others, more fearful, say that the time the current three-year enlistment period is over, the present Nazis will be returning to the Fatherland where they "can form the nucleus for a new German army."

Rumor to the contrary, there are few Americans or British in the Legion since the laws of those nations make it almost impossible for them to serve in foreign armies.

From time to time rumors pop up that the Legion is shanghaiing men. "Why should we," asks Capt. Deleue, "when we get so many volunteers that we can take our pick and so we enlist those who are best experienced professionals, technicians and whatever specialists we happen to need?"

Virtually the entire Legion, including the two mechanized divisions and three battalions of paratroops has been equipped with U.S. arms, either through lend-lease or surplus material. From outward appearances, the Legion, training in the Sahara wastelands could be American G.I.'s on manoeuvres in Arizona.

The Legionnaires pay is a most modest three cents a day. Yet, he is given all his clothes, his lodgings and his food. Particular pride is taken in preparing the mess. An officer inspects the kitchen before each meal and tastes the items on the menu. If the meal displeases him, it isn't proper for his men.

Besides the large number of Germans, there are many Spaniards in the Legion. Whereas the Germans enlist in the French foreign zone of Germany, the Spaniards join at Marseilles where the second of France's four recruiting stations is located.

The Spaniards are veterans of their own civil war and formed the largest single element to enlist during the late 30's. Before then, the White Russians, who fled from the Communists, found haven in the Legion, and prior to then, the defeated Germans of World War I.

Today, they all are in the Legion. Under their white kepis the white pillbox and flowing scarf, the Legionnaire still resembles the Beau Geste of Hollywood as he marches by to defend La Belle France in the lands of the colonials.

Women Drinkers Said More Extreme

TORONTO. — Women who smoke and drink tend to be "more extreme" than men, Anglican Bishop G. A. Wells said recently. He offered this advice:

Stop "aping the men."
If you're under 20, leave the stuff alone.

If you go 20 years without tobacco and liquor, you'll probably never use them.

Garden Notes

Plenty Of Time

Too early sowing is definitely not recommended. It is all very well to sow a few short rows of vegetables a week or two before the regular time just on the chance that there will be no late frosts, but the main sowings should wait until the time recommended by the seed catalogue or the local experts. For plants that are tender nothing is gained in planting in cold soil and before the weather has definitely turned warm. Of course, where extra protection is provided one can get started earlier but otherwise it is better to wait.

Even if tender plants do survive a late frost they are quite likely to be so retarded that later and normal plantings will overtake them.

In the vegetable garden, of course, one should never sow all seed at once. The experts urge spreading sowings over several weeks so that the harvest will likewise be spread out. In most parts of Canada one can go on planting beans, beets, carrots, lettuce and such things every ten days or so from the time of earliest possible planting right up to July.

Common Mistakes

Too deep, too thick and too soon are perhaps the commonest mistakes made in gardening when it comes to sowing seed. There are a few big things like tulips, gladioli or potatoes that are planted anywhere from 4 to 12 inches deep. But with the vast majority of seeds deep planting is inadvisable. The general rule is three times the diameter. This means an inch deep for things like beans, peas, corn and nasturtiums, but mere pressing in for tiny seed like that of lettuce, petunias, carrots, etc.

With the very fine seed such as alyssum or poppy, all that is necessary is to spread and press in gently.

The larger seed mentioned—that is peas, beans, etc.—should be spaced at least three inches apart. This is not very difficult as it is easy to keep each individual seed separated. With the smaller carrot, lettuce or beet seed, or flower seed of about the same size, spacing will be more difficult. There are little gadgets on the market which will help spread out the sowing, or one can let a dribble trickle between thumb and finger. Even then, however, it is best to thin as soon as the plants are up to at least an inch apart. This will give room for development which all plants must have if they are to grow well. To spread out the very fine seed, stuff that is only about the size of a pinhead or smaller, it is a good plan before sowing to mix with a little fine sand or earth and sow the whole mixture.

—Central Press Canadian.

READY FOR WORK — Hendrik Van Helverts, seven, is ready to start right in on the problem of doing farm chores in her new Canadian home. She is one of a family of 12 from Holland who have taken up residence on a farm at Uxbridge, Ont. Other Dutch families settling in the area 18 months ago now own their own farms.

Colour Adds Safety

Colour, skillfully applied in an industrial plant can help reduce accidents and raise morale—it can have a stimulating influence on house-keeping and on the entire accident prevention programme. One company found that after completion of a carefully planned paint job in their machine shop accidents were reduced 12 per cent. Another company found that six months after a repainting job had been done in their plant time loss through accidents had dropped 38 per cent. along with an appreciable decline in absenteeism and labour turnover.

A properly planned paint job can light up working areas and working surfaces, spot danger areas, exposed and unguarded edges of platforms, projections of doorways, low beam pipes, obstructions, etc. It can accentuate handrails, guard rails, or top and bottom of stairs. It can identify location of equipment, emergency supplies, traffic aisles, etc.

When you paint, paint with a purpose! Industrial Health Bulletin offers the following suggestions for colour in industry:

1. In painting machines, colour should not be applied to machined surfaces. Effective colour contrast may be obtained by providing a suitably-coloured screen behind the tool or object being worked on.
2. The colour of the ceiling, walls and floors should adequately distribute the available light under daylight or artificial lighting, making a harmonious background and contributing to a proper brightness relationship throughout the room.
3. The colour scheme should allow for a surface finish which will reduce any glare to a minimum in conjunction with the lighting installation.
4. The colour code shall be:
Red—Reserved entirely for fire and fire equipment.
Orange—To indicate moving hazards, traffic exits, electric high tension equipment.
Yellow—Reserved as a solid colour with black vertical or diagonal stripes to indicate fixed hazards, blockades, low beams, etc.
Green—To indicate first aid rooms and location of hospital equipment.
Blue—To indicate machinery out of order or machines that must not be started.
White—To indicate traffic lanes or as a background for sanitary equipment.

SELECTED

RECIPES

ENGLISH MONKEY

- 1 cup milk
 - 1 cup bread crumbs
 - 1 tablespoon butter
 - 1/4 teaspoon salt
 - Few grains pepper
 - 1 cup cheese, cut in small pieces or coarsely grated
 - 1 egg
 - 4 slices of toast
- Scald milk in top of double boiler, add the bread crumbs, butter, salt and pepper. Add the cheese and stir over hot water until the cheese has melted. Stir in the slightly beaten egg and cook for 1 minute. Pour over toast and serve immediately.

HEALTH SALAD

- 1 cup shredded raw cabbage
 - 1 apple, diced
 - 1 carrot, grated
 - 1/2 cup halved red grapes
- Toss together lightly and marinate with your favorite salad dressing. Serve on lettuce leaves or other greens and sprinkle with paprika.

Initiative is originality in motion.

Guest-Best Linens

Alice Brooks

Say "welcome" to house-guests with exquisite bedroom and bath linens! These are crochet and embroidery—such interesting work! Make a matched set—towels and scarf! Pattern 7100; transfer 5 motifs 5 x 11 in.; crochet directions.

Our improved pattern—visual with easy-to-see charts and photos, and complete directions—makes needle-work easy.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department,
Winnipeg Newspaper Union,
60 Front Street W., Toronto.
Be sure to write plainly your Name, Address and Pattern Number.

Helpful Hints

Before giving painted walls that spring coat of paint, be sure to fill up any small cracks that may have come to the surface. There is a plaster on the market for these small jobs similar to plaster of Paris, but it takes longer to harden and therefore is more readily applied by the amateur.

When buying pots and pans, check handles carefully. One that's too heavy may tip easily. You'll also want a handle that fits your hand, is heat-proof and can be gripped easily. Buy a pan that fits your stove burners. Finally, the cover must fit snugly. The flatter it is, the more easily you can store it.

Hem every duster you use on furniture. Unhemmed cloths soon fray and become rags that leave lint and bits of thread in their wake.

Smile of the Week—

Bill: "Why do red-headed women always marry such quiet men?"
Joe: "They don't. The poor guys get that way afterward."

Help Prevent Drownings

Once again we are in the season when the danger of drowning is ever present, so we again bring your attention to the life saving device that is recommended by the Canadian Red Cross Society, Sask. division, Regina. Farm dugouts, dams, swimming holes should all be equipped with some life saving device. These places are dangerous and claim many lives each year.

The 60 foot 1/4 inch rope is attached to the handle of the can. The block of wood on the free end of the rope prevents its sinking. Coil the rope clockwise in a 15 inch coil.

Directions For Throwing

Hold the can in throwing hand—coil is held loosely in the other hand. Step on rope ahead of the block. Heave can with an under-hand swing—allow rope to follow. Throw can well past victim and draw it to him. Brace yourself. Pull steadily—don't jerk. The airtight can will support the victim's weight.

The buoy should be hung neatly, ready for instant use. TWO are better than ONE—Practise using it.

Another safety item is a long light pole which can be used for reaching or guiding a plank to the victim.

EQUIP—
FARM DUGOUTS AND
SWIMMING HOLES WITH
THIS PRACTICAL SAFETY DEVICE.

SWIMMING WATER SAFETY

SASK. DIVISION 2801 VICTORIA AVE. REGINA.

OUR COMPLETE SHORT STORY—

Girls Who Wear Glasses

Lucy Thought It was
Too Good To Last—
But Was Wrong.

By Marion Boucher

"THE child would be quite pretty if only she didn't have to wear glasses," Aunt Maud was saying. "It's too bad, especially for an only girl. Well, she can always go in for a career."

The remarks, to her mother, weren't intended for Lucy's fourteen-year-old ears but she overheard and never forgot them. She became painfully aware of her glasses, avoiding them whenever possible. If she wanted to read, she went to her room. If she went to a show, she waited until she was seated before putting them on and shoved them in her purse as soon as the picture was over. She would rather be seen in her undies than bespectacled.

Actually Lucy was pretty, with a wistful smile one did not easily forget.

But boys never whistled as she went down the street.

It was the same at college. The boys would talk over classes with her but they asked more glamorous co-eds for dates. Lucy thought forlornly, "I might as well accept my fate—I'm probably doomed to be a spinster." She became resigned to glasses in public.

And then she met Martin Carmody. He was in medical school—a serious young man with a careless charm. Lucy's heart turned over whenever he spoke. When he did ask her out, she had to pinch herself.

The world, even through spectacles, suddenly became a rosy place. She was in love, and yes, quite sure that Martin was in love with her. To be sure, she found out that he hadn't much money and couldn't afford to take her out often. But Lucy didn't mind. It was fun just to talk with Martin about classes and people and life. They were walking one afternoon when he mentioned the Med. dance.

"It's going to be quite an affair—would you like to go, Lucy?"

"Oh, I'd love it, Martin!" Lucy gave a little cry of delight. She wondered secretly if Martin could afford it. But she refused to worry about

that and thought instead of what she would wear. She had a blue formal—Martin liked blue.

All the campus was talking about the dance.

"Going, Lucy?" a classmate asked.

"Yes, with Martin Carmody."

"By the way," the girl looked at Lucy maliciously. "I saw him last night with an attractive blonde. Competition?"

It couldn't be true, Lucy thought. Martin had told her that he was going to be working. When a couple of days went by without word from him, she was worried. Even when he was studying, he usually found time to phone.

She went to a show with her mother. Coming out of the theatre, she saw them: Martin with a sophisticated number. Martin seemed very attentive.

"I might have known it was too good to last," Lucy told herself dismally. "Martin liked me for a while but how can a bespectacled girl compete with a glamorous blonde?" Well, she would forget about the dance but could she forget Martin? She was trying to study the next evening when she heard the doorbell.

"For you, Lucy," her mother called.

She walked slowly down to find Martin.

"Hi, Lucy! All set for tomorrow?"

"What about your blonde girlfriend?" Lucy asked. Doesn't she want to go?"

He looked bewildered.

"You needn't put on an act, Martin. I know you've been taking someone else out."

Suddenly he began to laugh.

"Lucy, you nit-wit! Haven't you heard of the Escort and Guide Service? I wanted to earn a little money for the formal so I took on the job. Now, are you going with me or not?"

"I can hardly believe that you want to take me, Martin. I know I am no glamor girl and these glasses . . ."

"You look pretty good to me, Lucy. As for your glasses, take them off—they're in the way."

First Jet Flight Sets Record

The history-making flight of the western hemisphere's first jet airliner on its first commercial flight took place recently when the Avro Jetliner left from Malton airport and set a new record for the Toronto to New York 359-mile journey. It averaged 415 miles an hour for the trip, half the regular time.—Central Press Canadian.

Record Sugar
Beet Crop Looked
For In Manitoba

* WINNIPEG.—Indications point to a record sugar beet crop in Manitoba this year. An estimated 21,000 acres will be planted and growing conditions are excellent because of ample moisture, according to government officials.

To date, farmers in the four sugar beet provinces—Ontario, Alberta, Manitoba, and Quebec—have signed contracts for 102,000 acres. The figure should be up to 111,000 acres before planting time, as growers are planning the biggest acreage in history, officials said.

Gas Line To
B.C. "Means Boom"

VANCOUVER.—Purchasing agents from three of the largest public utility corporations on the west coast attending the annual Purchasing Agents' convention here, agreed that the proposed natural gas pipeline from Alberta would be the major economic development of the decade for the Pacific Northwest.

They estimated the giant pipeline likely would cost a staggering \$113,784,000.

Mr. F. W. Barnum of Seattle Gas Co., gave figures of the tremendous construction project itself:

"It will require approximately 1,500 miles of pipe costing \$23,000,000. It will cost \$7,426,000 to transport the pipe to its destination and another \$1,790,000 to coat and wrap this pipe. It will cost an estimated \$20,000,000 to put it in place."

FORM BASEBALL LEAGUE

TURTLE MOUNTAIN, Man.—At a meeting held in Dunseith, N.D., the Turtle Mountain baseball league was reorganized for the coming year. Representatives were in attendance from Bottineau, Rollette, Belcourt, Omamee in N.D., and Boisevain, Man.

Wm. Brandt of Omamee was re-elected president for the coming season. First league games will be played May 30.

British Columbia Leads
In Domestic Electricity

OTTAWA.—Of an estimated 3,504,000 households in Canada, 3,002,000—86 per cent.—were served with electricity in October last year, the bureau of statistics reported.

In domestic electrification, British Columbia topped the list with 96 per cent., followed by Ontario and Quebec with 94 per cent. each; Manitoba, 71 per cent.; Alberta, 63 per cent.; Saskatchewan, 54 per cent.

Bonfire was originally a fire of bones—a funeral pyre.

Apple Sales To U.S.
Nears 2,000,000 Boxes

KELOWNA, B.C.—Apple sales to U.S. markets have just about reached the allotted quota of 2,000,000 boxes, A. K. Loyd, president and general manager, B.C. Tree Fruits Ltd., announced. He said U.S. domestic market has firmed considerably.

Carload shipments during the 1949-50 crop year totaled 13,766, an increase of 1,411 compared with last year and gain of 407 compared with 1948.

LITTLE NEWS ITEMS OF LOCAL INTEREST

Born to Mr. and Mrs. Norman Nash in the Holy Cross hospital, Calgary, on Tuesday, May 9, a boy.

Rev. Jacob G. Rott will conduct morning services at Zion Baptist Church and evening services at Carbon Baptist Church Sunday, May 14.

Chris Diede and daughter Enith were Calgary visitors Monday.

LEGION MEMBERS! Don't forget it's Ladies' Night at the regular meeting Monday evening, May 15. Be sure to bring your wives and girl friends.

I.O.D.E. Sponsoring Recital and Concert

An evening of excellent musical entertainment is promised for Friday evening, May 19, when a Recital and Concert sponsored by the Duke of York Chapter, I.O.D.E. will be featured in the Carbon Scout Hall. Miss Grace Patton of Drumheller, who started teaching piano to a number of children in the Carbon district last September, will present her pupils in recital. Between the various renditions by Miss Patton's pupils Mrs. Peggy Webster will conduct her string orchestra in a number of musical selections. Several members of the orchestra are winners of scholarships for highest ranking in their class in the province, and will play solo numbers.

A similar string orchestra concert was sponsored in Drumheller by the Thos. Greentree Chapter of the I.O.D.E. in aid of their musical bursaries, and was enthusiastically received in the valley. Mrs. Webster and Miss Patton, who is also pianist in the orchestra, are giving their time and services voluntarily. Proceeds will go to the Carbon chapter's Educational Fund.

CARD OF THANKS

The Duke of York Chapter, I.O.D.E. extends grateful thanks to Mr. Fred Bessant and Mr. Bob Shaw for their kind cooperation in the recent Cancer campaign.

High School Baseball League Schedule

May 16—Acme at Carbon.
May 24—Beiseker at Acme.
May 30—Beiseker at Carbon.
June 6—Carbon at Acme.
June 13—Acme at Beiseker.

Sunday, May 14, is Mother's Day and in keeping with the occasion special Mother's Day services are being held throughout this entire continent. The Carbon United Church will hold a Mother's Day service at 11 o'clock. It will be a family service to which all members of the family are invited.

The choir will be composed of members of the Sunday School who will also take part in the service. The Sunday School will not meet separately next Sunday. The Rite of Infant Baptism will be observed at the Mother's Day service. The offering is to be devoted to the construction of a pavilion at the United Church provincial Young People's Camp at Kasota Beach, Sylvan Lake.

NOTICE TO CREDITORS AND CLAIMANTS

In the matter of the Estate of FRED F. OHLHAUSER, late of Carbon, in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named FRED F. OHLHAUSER, who died on or about the 4th day of March, A.D. 1950, are required to file with the undersigned by the 15th day of June, A.D. 1950, a full statement, duly verified, of their claims and of any security held by them, and that after that date the executrix will distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

DATED at Calgary, Alberta, this 24th day of April, A.D. 1950.
JOSEPH J. GREENAN,
Barrister & Solicitor,
Solicitor for the Executrix,
608 Leeson & Lineham Block,
CALGARY, Alberta.

OF

SAFETY

Recognized by
the Police when
their tests start
Monday, May 15

On Monday, May 15, Police will start an intensive Province-wide test of the safety features of all cars and trucks not already identified as SAFE with the Official Safety Sticker shown above in facsimile. It is still possible for all safe vehicles to obtain Safety Stickers at garages or service stations recognized by the Police throughout Alberta as Official Testing Centres. With every SAFE motor vehicle officially identified, it will be a simple matter for the Police to check the unsafe machines operating on the Province's highways to the constant danger of drivers and pedestrians alike. When obtaining your Safety Sticker, ask your Official Testing Centre for one of the informational booklets available to every possessor of a Sticker, which automatically confers Associate Membership in the Safety Council.

ALBERTA SAFETY COUNCIL
